Phone: +1 (858) 922-3731

E-Mail: beau.dougan@gmail.com

Education

California State University San Marcos

Graduated May 2026 Cum Laude

Bachelor of Science in Software Engineering

Relevant Coursework: Data Structures and Algorithms (**C++ & Java**), Operating Systems (**C++**), Software Testing (**Junit**), Embedded Systems (**Assembly & C**), Discrete Math, Software Engineering (**Java**), Database Systems (**SQL**), Software Architecture (**Java**), Computer Architecture, Machine Learning (**Python**)

Technical Skills:

- Languages: **Java, Assembly, C++, Python, SQL**
- Tools/Technology: Git, VS Code, Unix, Junit, IntelliJ, Eclipse, SQL, AWS, Jenkins, scikit-learn, PostgreSQL

Relevant Work Experience:

Qualcomm Robotics Senior Design Project

September 2025 – May 2026

- Chosen as part of a team of 4 for a senior design project developing a voice activated guide robot using a Rubik Pi 3 development board and a robot board while following the **SCRUM** process.
- Uses real time mapping to navigate through an area using **machine learning models, object detection, obstacle avoidance**, and **Bluetooth** connection to an **iOS application**.
- Activates through key word detection with **voice recognition** and responds back using **text to speech**.

Projects:

Credit Card Fraud Detection

2026

- Created a machine learning model which can detect fraud with 96% recall using anonymized features from credit card purchases
- Used **scikit-learn** to build random forest and logistic regression models as well as comparing the two models

OrderOS

2026

- Built a profile-driven voice commerce platform using **Python, Twilio, SQLite**, and **LLM**-assisted language interpretations, supporting multi-turn ordering, transaction state management, catalog-driven workflows, order persistence, and deterministic business logic across multiple business types.
- Designed a deterministic, **MCP** compatible commerce system that separates LLM language interpretation from pricing, validation, fulfillment, and order execution, preventing **AI** systems from controlling business workflows.

Additional Work Experience:

Doordash Delivery Driver

February 2024 - 2026

Mainstream Source Office Assistant

August 2022 - 2024

Sambazon Açai Café Barista

August 2020 – 2022

Thai Society Delivery Driver

August 2017 – 2020

In-N-Out Burger

July 2014 – 2017

Soft Skills:

- Fast learner with excellent communication and organizational skills
- Strong work ethic: dependable, long-term team member with leadership experience
